Chavez Road Multi-use Trail Project Update

Date: September 19, 2023

The Village of Los Ranchos has contracted with Custom Grading, Inc. to install two raised crosswalks, also known as speed tables, on Chavez Road. There have been many scheduling difficulties in awarding the contract, and an opening in their schedule meant that the work would begin immediately. The project was awarded on September 18th and the work has begun today, September 19th. The Contractor has until September 26, 2023 to complete the work.

The crosswalks will be constructed west of the intersections of the two Caballero subdivisions and west of Neighbor Road. There will be traffic control at all times during construction, including flagging operations to maintain an open lane for the duration. No road closures will occur, except under unanticipated emergency situations.
